

REVIEW of SUPPLEMENTS to CR-WMA-1-0-01 (Dynon EFIS-D100 / EMS-D120 equipment)

1. **General**

This Chapter contains supplementary information on the optional equipment which is installed in the airplane.

The information given in this Chapter complete or supersede the basic Maintenance Manual in those sections as specified. Where not otherwise stated, information shown in the basic Maintenance Manual remains effective. Each Supplement consists of a Title Page, Record of Revisions, List of effective pages and the proper text.
